

COVID 19 – UPDATE 3/31/2020

Dear Customers,

We are open 24/7 and have a fully stocked inventory. Our current turnaround times are less than 24 hours with free shipping included.

We wanted to let our customers know that now it is more important than ever to have a medical ID during these uncertain times.

As supported by CDC recommendations, it is always important to wear a medical alert ID bracelet or necklace engraved with important health information for healthcare providers and emergency first responders.

If you are at higher risk of getting very sick from COVID-19, wearing an ID will help to protect yourself and at least give you a small peace of mind.

With that being said, we do not want someone to go without a Medical ID because of financial hardship or logistics. Please contact us at 1-800-693-0947 and we will work with you to make arrangements to give you affordable options to ensure you get a medical ID during this crisis. It is more important to us that someone in need gets an ID rather than going without.

Lastly - our recommendation to anyone not wearing a medical ID is to at least keep with you at all times a list of medical conditions, emergency contact names/numbers and any medications you are currently taking.

We all have anxiety about this virus and it's uncertainties. We will get over this and come out stronger people / Americans in the end. Hang in there everyone and please be well!
